

An Amazing Opportunity in Waco!

Using The 12 Principles of Power

Create Inner Peace & Outer Harmony

How do you get through a rapidly changing world where change is accelerated by daily advances in technology? Where do you find God/Source/Creator amid Facebook, Twitter, and Instagram?

Energy is what everything in the physical world has in common. We tend to think of energy powering everything from lamps to nuclear plants. What we fail to focus upon is that we, ourselves, are energy. So, how do we harness the energy that is within us, and available to us, to connect with the Source of All energy?

This presentation is based upon Carole's book "The Questions God Will Ask." Each class will go into detail on one of the 12 Principles of Power. Each participant will be gifted a copy of Carole's book to reference during the series and to keep for future use.

Session will include Q&A.

Your takeaway from this series will be a renewed sense of self, purpose, and user-friendly practice to keep you on the authentic path for your life's mission.

Carole Gold (www.CaroleGold.com) is a nationally known Intuitive and spiritually-based speaker. Her passion is to provide guidance and encouragement during periods of professional and personal change. She has spent decades professionally guiding others and helping people access their own internal guidance.
